

Personal Portfolio

Hasin Rayan
Mechanical Engineer

About Me

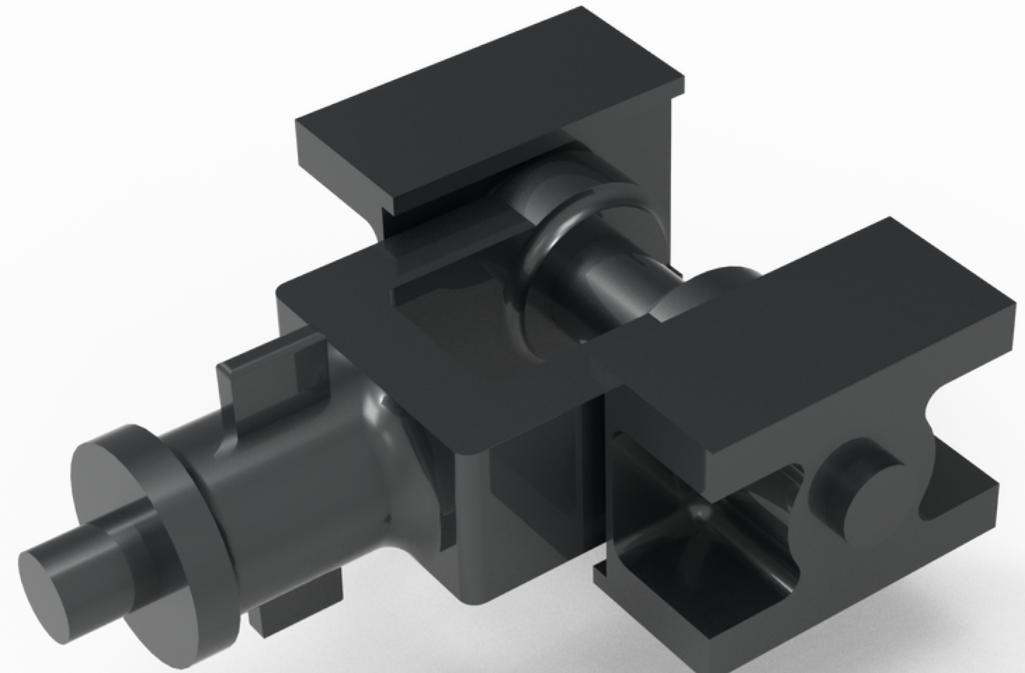

Hasin Rayan

Multi-skilled professional with expertise in 3D modeling, CAD, and mobile app development. My extensive skill set encompasses 3D modeling with Solidworks, rendering with Keyshot, and AutoCAD 2D drafting. I have hands-on experience in vehicle maintenance and site management.

I hold a Diploma in Engineering in Mechanical Technology and am currently pursuing a B.Sc. in Mechanical Engineering. In addition, I've completed training in CAD/CAM design, AutoCAD, and Android app development. In summary, I am a highly skilled and versatile professional, dedicated to continuously enhancing my expertise in diverse professional domains.

This app is a powerful image resizing and compression application designed for a client. It simplifies the process of reducing image file sizes while maintaining the image quality. The app offers flexibility by allowing users to save images in multiple formats, including JPG and PNG, making it an ideal choice for various use cases.

Made with Android Studio (Java)

Thank You
